

We feel that you should leave the Indiana Telephone Privacy Law alone. We don't feel that you should implement any proposal that would lessen Indiana's Telephone Privacy law protections. We used to receive 10 - 12 telemarketing calls per week or more, now we seldom receive more than 1 to 2 per week. This has greatly improved our time at home which in turn has greatly improved our dispositions. We were extremely tired of having to answer the phone so much and then subsequently hanging up on all these calls. It was really frustrating but it is so much better now.

Thank you so much for your attention to these comments. We appreciate your time.
